

Appl. No. 10/280,750
Amdt. dated June 6, 2003
Reply to Office action of March 6, 2003

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

- 1) (cancelled) A method for improving the performance of an electrical power distribution grid, said grid utilizing existing rights of way to traverse real property, comprising the steps of
 - a. providing a plurality of electrical storage devices capable of alternately storing and discharging electricity,
 - b. locating the electrical storage devices within the existing rights of way, and
 - c. connecting said storage devices to said grid.
- 2) (cancelled) The method of claim 1 further comprising the step of locating at least some of said electrical storage devices within new rights of way granted to expand said grid.
- 3) (cancelled) The method of claim 1 wherein said existing rights of way are selected from the group consisting of gas line rights-of-way, power line rights-of-way, substation rights-of-way, petroleum rights-of-way, communications rights-of-way, road rights-of-way, water rights-of-way, sewer rights-of-way, railroad rights-of-way, and combinations thereof.
- 4) (cancelled) The method of claim 1 wherein said electrical storage devices are placed within the rights of way for electric transmission poles utilized in said grid.
- 5) (cancelled) The method of claim 5 wherein said electrical storage devices are placed within said electrical transmission poles.

Appl. No. 10/280,750
Amdt. dated June 6, 2003
Reply to Office action of March 6, 2003

- 6) (added) An electrical storage devices placed within an electrical transmission pole.
